# Therapeutic Update: Optimising Drug Treatment Through Medication Management Reviews

Novotel, St Kilda, Melbourne,  
Victoria  
**1<sup>st</sup> to 3rd February  
2010**

Presented by

**Jeff Hughes and  
Peter Tenni**

*The program involves 18 hours of direct contact time, with a strong emphasis on case-based learning in common therapeutic areas. A focus on clinical controversies is included in addition to four sessions on drug induced disorders commonly seen in medication reviews are included. In order to satisfy requirements for re-accreditation CPD points, this course contains an assessment module. Successful completion of the assessment will provide the registrant with 36 AACCP CPD points.*

*Case study sessions will involve working in small groups in identifying and solving common drug related problems that may be encountered whilst undertaking medication management reviews. Emphasis will be placed on the development of practical knowledge and skills.*

*The case-based sessions will focus on medication management principles and their application when dealing with individual patients. Case session activities will include*

- *evaluation and prioritisation of drug related problems,*
- *development of medication management plans, and*
- *documentation and communication of recommendations.*
